## 2. REBATE APPLICATION CHECKLIST

**This program offers rebates for the purchase of new energy-efficient products. Reconditioned or refurbished equipment is not eligible for a rebate. Use this checklist to complete the steps to receive your rebates:**

- 1. Read the following terms and conditions to determine if you are eligible for a rebate:
  - Only one service address per application.
  - The utility reserves the right to apply rebates to past due accounts. Rebates \$75 and under will be applied to your account. Rebates will not exceed the purchase price.
  - Energy-efficient equipment must be connected to a natural gas service supplied by Austin Utilities or Owatonna Public Utilities and is subject to inspection.
  - Windows, doors, and insulation must be installed in a conditioned living space where the utility supplies the primary heating energy (e.g. NOT garages or sun porches).
  - CEE Participating Contractors must have attended all Center for Energy and Environment (CEE)-required trainings and be a certified insulation installer by the Building Performance Institute, perform work in accordance with CEE standards, and agree to the provisions of the CEE Contractor Participation Agreement, including correcting any deficiencies found by CEE and completing the CEE-provided post-installation report.
  - Equipment installations must meet our Minimum Efficiency Requirements to qualify for a rebate.
  - Due to limited funding, this rebate offer can be withdrawn at any time without notice. Applications will be processed on a first-come, first-serve basis. All applications from the previous year's (2014) purchases must be received by March 31, 2015.
  - Rebates can only be offered on equipment that is installed while funding is in effect. In the event our program is discontinued due to depleted funds, we will not provide a rebate for items installed between the discontinued date and the end of that year.
- 2. Purchase and install new products with the ENERGY STAR® label or that meet our MINIMUM EFFICIENCY REQUIREMENTS.
- 3. Complete the application, making sure to fill out all required sections in detail. Missing or incorrect information will increase the processing time.
- 4. Include a final, detailed copy of the original sales receipt, invoice, or picking slip showing the customer name, date of sale, manufacturer name, model number, size, and date of installation.
- 5. For window/door rebates, applicant must include the NFRC label for each window/door type and size. City Final Inspection Form is required for OPU customers.
- 6. For insulation and air sealing rebates with CEE participating contractors, the contractor must meet CEE Participating Contractor requirements as listed in the above terms and conditions.
- 7. Sign the application.
- 8. Mail completed forms and required documentation to your utility provider:
